

## 7.2 BEST PRACTICES

### 7.2.1 Practice-I

#### **Title: Uniform (dress-code) for students**

The College is a co-educational institution with a uniform or dress code for both male and female students. While the female students are already wearing appropriate attire, male students are encouraged to do the same this year and they are coming in proper uniform. The key advantages of implementing a uniform policy are:

**Discipline and Equality:** Uniform promotes the sense of equality and unity by minimizing socioeconomic differences among students. Students that wear uniforms develop self-discipline and accountability, demonstrating a serious attitude toward behavior and academics.

**Safety and Security:** It make it easier for faculty, staff, and security personnel to identify students and distinguish them from visitors or intruders, enhancing campus safety. Students are less prone to make judgments about one another based on appearance or apparel brands resulting in creation of safe and inclusive environment in the classes. It plays an important role in maintaining safe and healthy learning environment in the college and adds to the reputation of the college.

**Strengthens Institutional Identity:** It helps students feel proud to be part of their college and contributes to the overall spirit and culture of the institution.

**Holistic growth of students:** It inculcates in students the sense of responsibility, discipline, unity, team work, collaboration etc resulting in the holistic development of students.

## **Practice-II – Strengthening National Cadets Corps (NCC) & National Service Scheme (NSS) Units**

**NCC and NSS wing of College** are well-organized and act as one of the best practices for promoting certain key aspects of educational quality.

1. **National Cadets Corps (NCC)** is an excellent medium to imbibe values such as discipline, respect, punctuality, team work, leadership qualities and self-control. NCC Cadets of the college participate in social activities like community service (blood donation camps, planting trees), awareness programs (Clean India green India, Plastic free India etc), and disaster management training which inculcate in them the sense of social responsibility and civic awareness. NCC activities, which often involve cadets from different regions and languages, help break regional and cultural barriers and fostering a sense of national unity and brotherhood. Some NCC students are felicitated for attending PM rally of republic day and attending Youth Exchange Programme at Kazakhstan.
2. **The National Service Scheme (NSS)** NSS plays a pivotal role in bridging the gap between institutions and society by encouraging students to participate in community-based programs. The NSS wing of the college has adopted the nearby village of Logate, aiming to contribute to its overall development. The unit actively works to promote education, health, and hygiene, address local needs, and promote sustainable development through a variety of programs like awareness drives, health camps, cleanliness campaigns, and literacy programs. This program demonstrates the college's dedication to social responsibility and community involvement.
